Ref. Barcode Number of steps Number of steps Number of steps Weight
when closed when an A-frame when extended

KL7338 6005413000092 3 6 12 14.5kg

FEATURES

- Multi-purpose aluminium ladder
- Positive locking steel hinges
- Non-skid feet
- Rust proof electro-plated hinges
- Hinges to be lubricated monthly
- Grooved non-slip treads
- Maximum static load rating MSVL - 130kg
- Safe working load 115kg
- Easy visual check on locks
- 12 month warranty
- Use as a double sided 6 step A-frame
- 4-section 3 rung construction
- 12 step extended length
DUAL-PURPOSE ALUMINIUM LADDER

**WONDER LADDER®**

MP7238

**FEATURES**

- Dual purpose aluminium ladder
- Positive locking steel hinges
- Non-slip feet
- Grooved non-slip rungs
- 2 Different positions
- Maximum static load rating MSVL - 130kg

**3-IN-1 STEP/EXTENSION ALUMINIUM LADDER**

**AP RANGE**

**AP 300**
Without Stabilizing Bar

**AP 420**
With Stabilizing Bar

---

**FEATURES**

- Versatile 3-in-1 step-extension ladder, A-frame or single lean-to ladder
- When used as a two-section push-up extension ladder, the height can be varied by 300mm increments
- Engagement of safety lock makes a strong conventional step ladder
- Wide foot base on back legs gives good sideways stability and strength (applicable to the AP420, 540 and 660 only)
- Practical indoor and outdoor applications and easy storage
- Robust aluminium construction
- Rust, rot and splinter proof
- 2 year warranty
- Two rung overlap when extended

The ideal heavy duty double-sided step-ladder for the engineering and building industries

- High shear strength rivets used for lifelong safety
- Eight rivets per tread ensures a strong, robust product
- Durable all-aluminium construction
- Rust, rot and splinter proof
- 75mm wide non-slip treads
- Non-slip non-scuff PVC feet
- Pinch resistant spreader bars
- Solid triangular bottom gusset
- 2 year warranty
- Safe working load 135kg
- Maximum static load rating MSVL - 175kg
**Features**

- Unmatched combined benefits
- Only GRAVITY can offer the benefits of flat platform rungs combined with box section side rails which give these exclusive combined benefits
- Platform rungs give increased safety and comfort while reducing fatigue
- The box side rails stop ladder ‘twisting’ in the way in which ‘C’ section side rail ladders do
- The patented rung/side rail joint further prevents ladders ‘twisting’ in the middle whilst climbing
- The box side rails give good sideways stability - about 2.5 times better than ‘I’ beam side rail ladders
- Our rung/side rail joint reduces wear preventing loosening of rungs
- The much larger ‘platform rung’ is about 4 times stronger than a round rung and will not bend
- The stronger rung prevents rungs from pulling out of the side rail inwards
- The larger rung prevents rungs ‘punching through’ the side rail
- The ‘interlock’ side rails eliminate clamps and the damage often associated with clamps
- The GRAVITY safety ladder locks prevent accidental lowering of the ladder and related dangers
- Square rungs prevent rung turn
- GRAVITY rope and pulley system for easy extension
- Maximum static load rating MSVL - 150kg
